

● THE JOVI SCHOOL PROGRAMME

Six ready-to-teach clay units. Zero kiln. One material order.

JOVI Air Dry Clay and modelling tools, specced to your scheme of work — from Year 1 fossil tiles to IGCSE and IB portfolio pieces.

Trusted by teachers in 80+ countries

Recommended by educators

EN71 / CE certified

JOVI has made art materials for children in Barcelona since **1939** — still family-owned, still manufacturing in Spain. Its clays were developed for *classrooms*: safe enough for a Year 1 table, consistent enough for an IGCSE portfolio piece. JM Brands Sdn Bhd is the sole Malaysian distributor.

1939

Founded in Barcelona, family-owned

EN71

CE certified, non-toxic, gluten free

Kilns or firing equipment needed

SOUND FAMILIAR?

- ✗ No kiln, or a long queue for the one you have — so clay projects get cut from the term plan.
- ✗ Clay that cracks or dries out on the shelf, so half the order is wasted.
- ✗ Guessing quantities — you run short mid-unit, or over-order and blow the budget.
- ✗ Planning on your own time — units, timings and assessment maps written on weekends.

The programme removes all four. You choose what to teach; we bring the plan and the right quantity of the right material.

THE MATERIALS

Air Dry Clay • White

Air dries 24–48 h*. No kiln.

Air Dry Clay • Terracotta

Classic ceramic look, paintable.

Air Dry Clay • Grey

Stone finish for carving work.

Modelling tools

3-piece and 5-piece sets, primary-safe.

Plastilina

The 3D sketch material: never dries, so students test ideas before committing clay.

*Drying times are for standard conditions; thicker builds in Malaysian humidity can need longer — the guidebook includes honest drying guidance by project.

● SIX UNITS, WRITTEN FOR CAMBRIDGE, IGCSE AND IB

1 Fossil Impressions · Ages 5–8

Years 1–3 · PYP · Grades K–2 · texture, touch vocabulary, first clay contact

3 Starry Lanterns · Ages 10–12

5 Standing Planters · Ages 13–15

Years 8–9 · MYP 3–4 · Grades 8–9 · the design cycle, iteration

2 Pinch-Pot Pals · Ages 8–10

Years 3–4 · PYP · Grades 2–4 · form, joining, character

4 Relief Tiles · Ages 12–14

Years 7–9 · MYP 1–3 · Grades 6–8 · Peranakan tiles, songket geometry

6 Sculptural Maquettes · Ages 14–18

IGCSE 0400 · IB DP · Grades 9–12 · AO1–AO4 evidence, exhibition piece

Start here — it costs you nothing

Free Art Room Evaluation Pack

- ✓ 1 kg JOVI Air Dry Clay (colour matched to your sample unit) + 1 Plastilina pack + a modelling tool set
- ✓ The printed sample unit plan — objectives, timings and curriculum mapping, ready to teach
- ✓ Portioned for your class size — nothing to prepare

HOW IT WORKS — THREE STEPS, ONE FREE LESSON

1

Tell us which year group you teach

One WhatsApp message, or download the guidebook at jmbrands.com.my/schools/resources. We reply within one working day to set up a 30-minute chat — at your school or online, whichever suits your timetable.

2

We sit down for 30 minutes

We walk through the unit plan for your year group, agree quantities for your class, and answer the awkward questions (drying times, mess, storage). Then the evaluation pack ships within 5 working days — portioned and ready.

3

You teach it — we back you up

You run the lesson with your own class; the plan is written so it works first time. Want an extra pair of hands for portioning and joins? We'll gladly come along. After the drying shelf gives its verdict, we follow up — what worked, what to change, and a quote only if you want one.

INCLUDED FOR PROGRAMME SCHOOLS

A **programme school** is one that has placed a package order. Education pricing quoted to your class sizes · termly top-up deliveries timed to your calendar · art week materials and sponsorship · a named JM Brands Sdn Bhd contact on WhatsApp · the *Clay Across the Curriculum* staff workshop with PD certificates, at the art-room and department tiers. **The free evaluation pack is open to any international school, package or not.**

Talk to a person, not a portal.
